

8 Great Educational Travel Destinations Featured in Student Travel Planning Guide

The editors of *Student Travel Planning Guide* (STPG) have selected eight top educational travel destinations for student groups to be featured in the magazine's annual back-to-school edition and online StudentTravelPlanningGuide.com.

Cities were selected based on their capability of providing outstanding educational opportunities for children of all ages outside the classroom and their overall appeal as desirable tourist destinations for groups seeking unique, engaging experiences while traveling.

This year's featured educational destinations include:

1. Philadelphia, Pennsylvania
2. Boston, Massachusetts
3. Washington DC
4. Birmingham, Alabama
5. St. Louis, Missouri
6. Oklahoma City, Oklahoma
7. Atlanta, Georgia
8. Jamestown, Yorktown and Williamsburg, Virginia

Randy Mink, managing editor for STPG, said, “We’ve chosen these eight travel destinations for the way they reinforce the school curriculum, and while some of the choices are tried-and-true, other may come as surprises. Besides opportunities for learning, they offer their share of fun moments as well.”

Through both print and digital feature articles, the magazine will profile each destination and how it provides an extraordinary educational travel experience.

“We look to shine a bright spotlight on these destinations and capture the interest of busy teachers who are researching travel destinations and plotting out new itineraries for their class trips,” said Jeff Gayduk, publisher. “In the process, brands can promote their experiences to this targeted community through both our print and online mediums.”

About Student Travel Planning Guide

With a reach of 84,037 readers, Student Travel Planning Guide (STPG) is the most popular resource for traveling teachers.
